M/s Exceltech Consultancy and Projects Pvt Ltd				
44	General Query	Kindly mention the name of posts on which services of Feasibility Study and Transaction Advisory Services for Assessment of Reuse of Waste Water Requirement are to be rendered. Also mention type of activities are being executed at ports in which waste water is generating and activities in which fresh water is required are sought through RFP.		Please refer clarification to point 32
45	General Query	Kindly mention the quantity of effluents generated at each port seeking the services through RFP.		The consultant has to study this.
46	General Query	Kindly inform the types, capacity and status of existing treatment facilities at each port.		The consultant has to study this.
47	General Query	What is the effluent parameters of effluents in the above ports, weather all the ports are producing effluent of same nature or the effluent is of different nature? As per our understanding the nature of effluent shall be different depending upon the nature of goods handled at ports,		The consultant has to study this.

IPA Pre-Bid Queries-Compiled

Appointment of Consultant for Feasibility Study and Transaction Advisory Services for Assessment of Reuse of Waste Water Requirement for all Major Ports in India

		influent parameters.		
48	General Query	Treatability standards and effluent parameters for the waste treated in STP. What is the proposed used of waste water, clarify?		The consultant has to study this.
49	General Query	Kindly provide the international and national parameters of environment, which the IPA seeking to comply through the work.		Tender Condition Prevails
50	General Query	As per our understanding, the present water consumption level, quality and quantity of water generated from various ports is not precisely known to IPA. All the above sought activities in the RFP are unique in nature. The nature of effluent generated must be different at each Port. For developing the sought infrastructure and other facility need the preliminary study of each port. At this stage of filling the financial proposal is very based on very uncooked information. Therefore, any kind of financial proposal may either be much higher side or lower side. In both the cases the work output, economy and quality of work may suffer. Therefore, to make the work implementation flexible, the financial proposal should be in the form of % cost of project, instead of the quoting in the amount.		Tender Condition prevails.
